2 COVERED BOND ISSUER OVERVIEW

2.1 Covered bond issuer

| | |
|---|---|
| Name of the covered bond issuer | Crédit Mutuel - CIC Home Loan SFH |
| Country in which the issuer is based | France |
| Financial information (link) | http://www.creditmutuelcic-sfh.com/en/index.html |
| Information on the legal framework (link) | http://www.ecbc.eu/legislation/list#France |
| UCITS compliant (Y / N) ? | Y |
| CRD compliant (Y / N) ? | |

2.2 Covered bonds and cover pool

| Cover pool | | Total outstanding | of which eligible to central bank repo-operations |
|-------------------------|--|-------------------|---|
| Public sector exposures | | - | |
| Commercial assets | | - | |
| Residential assets | | 32 001 | |
| Substitute assets | | - | |
| Total | | 32 001 | |
| Covered bonds | | 20 295 | |

2.3 Overcollateralisation ratios

| | minimum (%) | current (%) |
|--------------------------|-------------|-------------|
| Legal ("coverage ratio") | 102,00% | 155,08% |
| Contractual (ACT) | 100,00% | 112,88% |
| Other | | |

2.4 Covered bonds ratings

| | | | | |
|----------------------|---------|--------|--------------|---------|
| | | Rating | Rating Watch | Outlook |
| Covered bonds rating | Fitch | AAA | - | Stable |
| | Moody's | Aaa | - | Stable |
| | S&P | AAA | - | Stable |

2.5 Liabilities of the covered bond issuer

| LIABILITIES | Outstanding |
|---|---------------|
| Equity | 222 |
| Subordinated debt | 120 |
| Other non privileged liabilities | - |
| Total equity and non privileged liabilities | 342 |
| Covered bonds | 20 295 |
| Other privileged liabilities | - |
| Total privileged liabilities | 20 295 |
| TOTAL | 20 637 |

3 ALM OF THE COVERED BOND ISSUER

3.1 WAL (weighted average life) of cover pool and covered bonds

| | Expected | Contractual | Explanations |
|-----------------------------|-------------|--------------|-----------------------|
| Public sector | | | |
| Residential | 77,4 | 102,6 | CPR rate used : 5,18% |
| Commercial | | | |
| Substitute assets | | | |
| WAL of cover pool | 77,4 | 102,6 | |
| WAL of covered bonds | 62,7 | 62,7 | |

3.2 Expected maturity structure of cover pool and covered bonds

| | 0 - 1 Y (years) | 1 - 2 Y | 2 - 3 Y | 3 - 4 Y | 4 - 5 Y | 5 - 10 Y | 10+ Y |
|---|-----------------|--------------|--------------|--------------|--------------|---------------|--------------|
| Public sector | | | | | | | |
| Residential | 3 164 | 2 975 | 2 797 | 2 628 | 2 467 | 10 211 | 7 759 |
| Commercial | | | | | | | |
| Substitute assets | | | | | | | |
| Expected maturity of cover pool | 3 164 | 2 975 | 2 797 | 2 628 | 2 467 | 10 211 | 7 759 |
| Expected maturity of covered bonds | 1 000 | 2 768 | 1 500 | 2 100 | 2 085 | 9 495 | 1 347 |

3.3 Contractual maturity structure of cover pool and covered bonds

| | 0 - 1 Y | 1 - 2 Y | 2 - 3 Y | 3 - 4 Y | 4 - 5 Y | 5 - 10 Y | 10+ Y |
|---|--------------|--------------|--------------|--------------|--------------|--------------|---------------|
| Public sector | | | | | | | |
| Residential | 1 713 | 2 097 | 2 112 | 2 124 | 2 116 | 9 707 | 12 132 |
| Commercial | | | | | | | |
| Substitute assets | | | | | | | |
| Contractual maturity of cover pool | 1 713 | 2 097 | 2 112 | 2 124 | 2 116 | 9 707 | 12 132 |
| Contractual maturity of cov. bonds | 1 000 | 2 768 | 1 500 | 2 100 | 2 085 | 9 495 | 1 347 |
| of which hard bullet | 1 000 | 2 768 | 1 500 | 2 100 | 2 085 | 9 495 | 1 347 |
| of which soft bullet | | | | | | | |

3.4 Interest rate and currency risks

| Interest rate risk strategy, limits, counterparties etc (if applicable) | | |
|--|---|------|
| | <p>Operating conditions of CM HL SFH must not expose it to any interest rate risk. Funds collected by bond issues are replaced to the BFCM at the same rate and duration. Asset and liabilities are strictly matched in terms of duration and rate. The interest rate risk is limited to the subordinated issues and placement of the capital. SFH could be exposed to a possible interest rate risk in case of BFCM's failure. In this case, SFH would carry out its guarantee and become owner of the housing loans. Rules of the bond Programme force CMCIC HL SFH to conclude specific swaps with counterparties that meet specific rating criterias for the hedging of these risks as soon as BFCM's downgrade arises. Following the downgrade by Fitch of the LT rating of BFCM, as at dec 14th, 2011 and in accordance with the documentation, swaps have been put in place in order to cover the interest rate risk on the assets and liabilities. The entire customer debt (with fixed or floating rates) is swapped vs 1m Euribor. The OH issues, or previous covered bonds issues, are also swapped vs 1m Euribor. BFCM is the current swap counterpart, benefiting from a sufficient rating with regard to the eligible criterias imposed by the documentation of the Programme. In case of BFCM's downgrade below following thresholds : A1 (short term) by S&P, P1 (short term) by Moody's and F1 (short term) / A (Long term) by Fitch, BFCM must be replaced by eligible counterparties. Mirror swaps have been simultaneously put in place between CM CIC HL SFH and BFCM in order to neutralize the interest rate position generate by the the mirror loans. In case of BFCM's default, the secured loans and the mirror swaps will be cancelled. The swaps hedging the currencies and interest rate risks on the issues and assets conclude with an eligible counterpart will remain in place. The only interest rate risk will be on the fixings, but limited as the assets and liabilities are indexed on the 1m Euribor. The interest rate risk is limited to the subordinated issues and placement of the capital.</p> | |
| | Nominal | WAL |
| Internal | 19 373 | 61,9 |
| External | | |
| Currency risk | | |
| | <p>The principle of risk is identical to the interest rate risk</p> | |

FRENCH NATIONAL COVERED BOND LABEL REPORTING TEMPLATE

Unless detailed otherwise

all amounts in EUR millions (without decimals)
percentages (%) with 2 decimals
time periods in months (with 1 decimal)

Group level information, senior unsecured ratings and covered bond issuer overview

- 1.2 Ratings of the parent company of the group in which the CB issuer is consolidated.
- 1.3 **Covered bond issuer ratings**
The rating agencies' methodologies usually take the senior unsecured rating of a covered bond issuer's parent company as a starting point for their assessment of the credit risk of covered bonds. However, instead of referring to the parent company rating, some rating agencies may issue a "covered bond issuer rating" which is an assessment of the credit quality of a CB issuer's credit quality on an unsecured basis. Generally, a "covered bond issuer rating" is the same as the senior unsecured rating of the CB issuer's parent company although it may be different in some specific cases. If no "CB issuer rating" has been granted to the CB issuer, "NA" should be indicated.
- 2.1 **Covered bond issuer**
- 2.2 **Covered bonds and cover pool**
Guaranteed loans or mortgage promissory notes :
If the eligible assets are transferred into the cover pool using guaranteed loans (i.e. collateral directive framework) or mortgage promissory notes, the outstanding amount of the eligible assets pledged as collateral of the notes or loans should be indicated instead of the amount of the guaranteed loans.
Asset backed securities :
If eligible asset backed securities are included in the cover pool, the explanations to the reporting should specify whether the information is provided using a look through approach (i.e. underlying assets) or if the outstanding amount of ABS securities held is indicated.
"Of which assets eligible to CB refinancing" :
The outstanding amount of eligible assets including replacement assets shall be filled in. The eligible amounts only take into account assets which fulfill the legal eligibility criteria to the cover pool. For residential loans, the eligible amounts are limited to 80% of the value of the pledged property for mortgage loans or of the financed property for guaranteed loans. The legal coverage ratio's weightings of eligible assets are not taken into account in this calculation (e.g. a loan guaranteed by an eligible guarantor with an LTV level below the 80% / 60% cap is entered for 100% of its outstanding amount regardless of the guarantor's rating).
- 2.3 **Overcollateralisation ratios**
Each issuer shall explain calculation methodology for each OC ratio :
- formulas
- all amounts shall be indicated after taking into account the cover pool's interest rate or currency swaps.
- accrued interest included or excluded ?
The legislation requires that the calculation of the legal coverage ratio be audited semi-annually within a period of three months following the calculation date. As a consequence, the current ratio is provisional / unaudited when the report is published. The last audited ratio is provided as an additional information.
Rating agencies : Minimum OC
Issuers shall disclose the highest minimum OC requirement.
- 3 **ALM**
Contractual maturities :
Contractual maturities are calculated assuming a zero prepayment scenario on the cover pool assets. For pass through ABS, this assumption is applied to the underlying assets to determine the contractual maturity of the ABS (i.e. contractual maturity is not calculated according to the legal final maturity of the securities).
Expected maturities :
The assumptions underlying the calculation of the expected WAL and expected maturity breakdown shall be disclosed for each element of the cover pool including substitute assets. Some information should be provided to explain the prepayment assumptions on assets and liabilities. For substitute assets, it should be explained if these assumptions include asset sales or repo.
- 3.5 **Liquid assets**
Outstanding
The nominal value of liquid assets shall be reported.
Liquidity support
Provide details on the nature of liquidity support.
- 3.6 **Substitution assets**
Details of the information provided shall be given in the case of split ratings.

Residential cover pool data

- 4 Explain for each table which information is included or not included (e.g. external RMBS assets excluded)
The assets backing guaranteed loans (collateral directive framework), mortgage promissory notes and internal ABS shall be disclosed using a look through approach in each table.
- 4.2, 4.3 **Geographical distribution / regional breakdown**
The geographical breakdown of assets shall take into account the location of the pledged property for residential mortgages and the location of the property which is refinanced by the loan in the case of guaranteed loans. List can be extended by individual issuers where applicable
- 4.4 **Unindexed current LTV**
Unindexed LTV is calculated on the basis of the current outstanding amount of the loans and the initial valuation / price of the residential assets.
- 4.5 **Indexed current LTV**
Indexed LTV is calculated on the basis of the current outstanding amount of the loans to the appraised values or prices of the residential assets using an indexation methodology. Details of the indexation methodology shall be provided.
- 4.6 **Mortgages and guarantees**
Provide a breakdown by guarantee regime in the case of state guarantees
- 4.10 **Interest rate type**
"Floating" includes loans with with interest rate reset periods exceeding one year (e.g. loan indexed on CMS 5Y with an interest rate reset every five years)
"Mixed" shall be used for loans with a combination of fixed, capped or floating periods (e.g. 10 years initial fixed rate switching to floating).

Public sector cover pool data

- 5 Explain for each table which information is included or not included.
